

## Bridge strikes...

know your height and plan your route

## and damage

On average, there are three bridge strikes a month on our roads

A single bridge strike could cost up to £2.6m

In the majority of cases, the load being transported hit the bridge

In the last 3 years, two bridges have been damaged beyond repair

## Plan your route

## **Be informed**

For more information on route planning and load security please use these search terms or scan the QR codes

'DfT load safety'
